

TAHERI Knives Manufacturer

Made in Iran

CATALOGUE

2021

TAHERI Knives Manufacturer was established in the year 1970 in Tehran, Iran. By benefiting from modern technology, machines and equipment could gain an extensive experience in producing knives. With the experience of more than 50 years, we have acquired a unique expertise in the manufacturing of our products. The innovative methods and the best raw materials that we incorporate in our products make them more effectual than the traditional items available in the market. Our products are designed using premium quality steel and stainless steel which is sourced from trustworthy vendors to maintain a consistent quality in the end. Being a client centric organization, we direct our efforts towards utmost satisfaction of our customers from ergonomic design to pricing. With our ethical and transparent business dealing we have acquired a large base of clients spread across Iran. As we are a customer-oriented organization, we are able to satisfy our customers optimally by meeting the expectations and demands in terms of quality and service excellence.
